Positively Impacting Peoples' Lives: Busch Brothers Machining, Inc.

"Positively impacting peoples' lives" is the core purpose of the Roundbank organization and a recurring theme for our issue of In the Loop. Our core purpose is firmly rooted in our day-to-day direction and our focus for the future. It is the fundamental reason for our existence and it goes far, far beyond making money - it is the personal guiding star on the horizon for all Roundbank staff.

In this feature, we are highlighting Busch Brothers Machining, Inc. Ron Busch and Randy Busch started Busch Brothers Machining, Inc. in 1987. Busch Brothers is a precision machining business that provides services to a number of companies here in Minnesota. Over the years they have grown to employ a staff of about 30. Ron, Randy and their staff take pride in providing a top notch experience and outstanding results for their customers, which is why a number of their customers have been doing business with Busch Brothers since they began operations 25 years ago.

In the 25 years since they began, Busch Brothers has grown from a small leased space to their current facility in New Prague's Wally Miller Business Park which they moved to in 1994. The growth of the New Prague community and Busch Brothers customers has led to two additions since then. Along with growing their own operations they have also added some rental space to assist the community with future growth needs in the business park. Ron and Randy recognize the importance of having quality industrial space available for small businesses, and hope the space can be an asset that will help New Prague grow and retain local businesses.

Ron & Randy Busch,
owners of Busch Brothers Machining, Inc.

Ron and Randy are lifelong New Prague residents and enjoy contributing to the community. Both are retired volunteer firemen from the New Prague Fire Department where they had nearly 50 years of combined service.

Roundbank is proud to have a relationship with Busch Brothers Machining, Ron Busch and Randy Busch. Their success in business and commitment to the community has had a positive impact on many in New Prague.

NEWS

Enriching our Communities

One of the ways our employees and Jr. Board illustrate how "Positively Impacting Peoples' Lives" is firmly rooted in their day-to-day lives is through volunteerism in the communities we serve.

We're excited to announce our employees and Jr. Board members have contributed approximately 4,300 volunteer hours throughout the 2011 year. We're proud of our employees and Jr. Board members for serving and enriching our communities!

Clockwise from top left: Waseca Jr. Board presented a check to the ***American Red Cross***, the money was earned through a fundraiser at Pizza Ranch. Waseca Investment Executive, Personal Banker, and son volunteered time at the ***Kids Against Hunger*** event. ***Blood Drive hosted by the Farmington employees.*** New Prague employees ringing the ***Salvaton Army*** bell at Coborn's.

INVEST

Process - Vs - Performance

Over the past 20 years, the S&P Index has posted an average annual return of 9.14%. The average equity investor earned just 3.83%. One of the reasons this can be attributed to is investors focusing on performance. Does your investment strategy need a high quality, disciplined process? Contact one of our investment executives today for a no-fee consultation! *Source: Dalbar, Inc2011 Also visit our website at: www.investmentsolutionsmn.com where you will find helpful information on planning for insurance, education and retirement.

How to reduce your Carbon Monoxide risk

Carbon monoxide is a tasteless, colorless, odorless gas that interferes with the delivery of oxygen throughout the body. Sources of carbon monoxide include:
- unvented kerosene and gas space heaters
- automobile exhaust from cars in attached garages

At lower levels, carbon monoxide can cause flu-like symptoms: headaches, dizziness, weakness and fatigue. At higher levels, it can cause confusion, disorientation, impaired vision and coordination, brain damage, coma and death.

Ways to Reduce Risk:
- Have a trained professional inspect, clean and tune-up your central heating system (furnaces, flues and chimneys) annually
- Repair any leaks promptly
- Do not idle car inside the garage

Please visit the Roundbank Insurance Agency facebook page for additional information on the warning devices that are available and what to do if the carbon monoxide alarm sounds.
